

Pre-Employability / Job Readiness

You may be exploring supports for your wellness, or identifying childcare, transportation or housing options that better suit your life's goals. You are taking responsibility for your choices, and are motivated to move forward.

Career Decision-Making

You may be understanding your interests, values, strengths and skills and linking these to your employment options. You know how to set and achieve goals

Skills Enhancement

You may be choosing an education or training program based on research and self-knowledge. You have strategies to address anticipated challenges.

Work Search / Entrepreneurship

You have an achievable employment goal or business plan, meet skill requirements for your preferred area of employment, and all the work search tools you will need to apply for jobs (resume, portfolio, social media, references etc).

Employment Maintenance

You know the responsibilities and expectations related to your current employment. You are building your self-awareness and accept and act on corrective feedback

Employability Influencers

You feel hope for the future. You have the capacity to bounce back from setbacks, know you are competent, and have motivation to build toward a preferred future

Current Activities

You may be employed or volunteering full- or part-time, or you may be taking training courses, or working on your health or wellness. All of these employment related activities help create a clearer picture of where you are on your career path.
